1. BASIS OF PRESENTING CONSOLIDATED FINANCIAL STATEMENTS

The accompanying consolidated financial statements have been prepared based on the accounts maintained by Daishinku Corp. (the "Company") and its consolidated subsidiaries. The Company and its domestic subsidiaries have maintained their accounts and records in accordance with the provisions set forth in the Financial Instruments and Exchange Act, and in conformity with accounting principles generally accepted in Japan, which are different in certain respects as to application and disclosure requirements of International Financial Reporting Standards and are compiled from the consolidated financial statements prepared by the Company as required by the Financial Instruments and Exchange Act. Overseas consolidated subsidiaries maintain their records in conformity with accounting principles and practices generally accepted in their respective countries. In general, no adjustments to the accounts of overseas consolidated subsidiaries have been reflected in the accompanying consolidated financial statements to present them in conformity with Japanese accounting principles and practices followed by the Company as allowed under accounting principles generally accepted in Japan.

Certain items presented in the consolidated financial statements filed with the Director of the Kanto Finance Bureau have been reclassified for the convenience of readers outside Japan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of the Company and its significant subsidiaries. Investments in certain subsidiaries which are not consolidated and in affiliates are, due to immaterial, accounted for at cost.

Generally, shareholdings in companies of more than 50% fall into the category of subsidiaries and shareholdings in companies of between 20% and 50% fall into the category of affiliates. However, shareholdings of between 40% and 50% may also fall into the category of subsidiaries, if the Company either substantially controls the investee company or has significant influence and relationship with the investees, respectively.

All significant intercompany accounts and transactions and unrealized inter-company profits are eliminated upon consolidation. The excess of the investment cost over the fair value of underlying net equity in subsidiaries and affiliates which are consolidated or accounted for by the equity method at the date of an acquisition is amortized on a straight-line basis within mainly five years or less.

TIANJIN KDS CORP., HARMONY ELECTRONICS CORP., HARMONY ELECTRONICS (Shen Zhen) Co., Ltd., HARMONY ELECTRONICS (Thailand) Co., Ltd. HARMONY ELECTRONICS (Suzhou) Co., Ltd., SHANGHAI DAISHINKU INTERNATIONAL TRADING Co., Ltd. and DAISHINKU (THAILAND) Co., Ltd. use a fiscal year ending December 31. DAISHINKU（H.K）Ltd., DAISHINKU（AMERICA）CORP., DAISHINKU (SINGAPORE) PTE. Ltd., DAISHINKU（DEUTSCHLAND）GmbH., PT KDS INDONESIA and KYUSYU DAISHINKU CORP use a fiscal year ending March 31.

TIANJIN KDS CORP., HARMONY ELECTRONICS CORP., HARMONY ELECTRONICS (Shen Zhen) Co., Ltd.， HARMONY ELECTRONICS (Thailand) Co., Ltd ., HARMONY ELECTRONICS (Suzhou) Co., Ltd. , SHANGHAI DAISHINKU INTERNATIONAL TRADING Co., Ltd. and DAISHINKU (THAILAND) Co., Ltd. has performed a hard close as of March 31st, 2015.

(b) TRANSLATION OF FOREIGN CURRENCIES

All monetary assets and liabilities denominated in foreign currencies are translated into Japanese yen at the exchange rates prevailing at the balance sheet date. Resulting gains and losses are included in net profit or loss for the period when incurred.

Assets and liabilities of the overseas consolidated subsidiaries are translated into Japanese yen at the exchange rates prevailing at the balance sheet date. The shareholders' equity at the beginning of the year is translated into Japanese yen at the historical rates. Differences in yen amounts arising from the use of different rates are presented as "Foreign currency translation adjustments" in the net assets and included in non-controlling interests in the net assets.

(c) CASH AND CASH EQUIVALENTS

Cash and cash equivalents included in the consolidated financial statements are composed of cash in hand, bank deposits that may be withdrawn on demand and highly liquid investments purchased with initial maturities of three months or less and which present a low risk of fluctuation in value.

(d) INVENTORIES

Inventories are mainly stated at cost determined by the average method. (The write-downs of inventories due to decreased profitability shall be recognized as cost of sales, in the case that the net selling value falls below the acquisition cost at the end of period, in the same manner as if these inventories were stated at the lower of cost or market.)

(e) SHORT-TERM INVESTMENTS AND INVESTMENT SECURITIES

All securities held by the Company and its consolidated subsidiaries are classified into Available-for-sale securities.

Available-for-sale securities with readily determinable fair values are stated at fair value. Net unrealized gains or losses on these securities are reported as a separate item in the valuation and translation adjustments in the net assets at a net-of-tax amount.

Available-for-sale securities without readily determinable fair values are stated at cost, except as stated in the paragraph below.

When the market price of available-for-sale securities falls below 50% of the price of the securities at the time of acquisition, a realized loss is recognized with the new cost basis being the current market price. If the market price falls 30% or more but less than 50%, a judgment is made about the likelihood of a recovery in price and decision is taken whether to write down to fair value.

(f) PROPERTY, PLANT AND EQUIPMENT AND DEPRECIATION (EXCEPT FOR LEASED ASSETS UNDER FINANCE LEASES)

Property, plant and equipment are stated at cost. Depreciation is principally computed by the declining-balance method (excluding buildings acquired on or after April 1, 1998, for which the straight-line method is applied), except that the foreign consolidated subsidiaries mainly compute depreciation by the straight-line method.

The principal estimated useful lives used for computing depreciation are as follows:

Building and structures	2 to 60 years
Machinery and equipment	2 to 17 years

The cost of maintenance, repairs and minor renewals is charged to income when incurred; major renewals and betterments are capitalized.

(g) FINANCE LEASES

Leases that transfer substantially all the risks and rewards of ownership of the assets are accounted for as capital leases. Leases that do not transfer ownership of the assets at the end of the lease term are accounted for as operating leases, in accordance with accounting principles and practices generally accepted in Japan.

For lease assets in finance lease transactions that do not transfer ownership, the straight-line method is employed, depreciating these assets down to their remaining guaranteed amount over the lease period, which is used as the service life.

(h)GOODWILL

Goodwill is amortized by the straight-line method over periods of no more than 5 years. Negative goodwill recognized on or after April 1, 2010 is credited to income as incurred.

(i) ALLOWANCE FOR DOUBTFUL ACCOUNTS

The allowance for doubtful accounts is computed based on historical write-off experience from a certain reference period plus estimated uncollectible amounts based on the analysis of individual accounts.

(j) ACCRUED EMPLOYEES' BONUSES

Accrued employees' bonuses are provided for the estimated amounts which the Company is obligated to pay to employees after the fiscal year-end, based on services provided during the current period.

(k) RETIREMENT BENEFITS AND PENSION PLAN

The provision for retirement benefits represents the estimated present value of projected benefit obligations in excess of the fair value of the plan assets at the balance sheet date. Unrecognized prior service costs are amortized based on the straight-line method over a period of ten years beginning at the date of adoption of the plan amendment. Unrecognized actuarial gains and losses are amortized based on the straight-line method over a period of ten years starting from the beginning of the subsequent year.

(l) RESEARCH AND DEVELOPMENT EXPENSES

Research and development expenses are charged to income when incurred.

(m) INCOME TAXES

The provision for income taxes is computed based on income before income taxes and non-controlling interests in the consolidated statements of income. The asset and liability approach is used to recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax basis of assets and liabilities.

(n) DERIVATIVES AND HEDGING ACTIVITIES

Derivative instruments are recognized as either assets or liabilities at their respective fair values at the date of contract, and gains and losses arising from changes in fair value are recognized in earnings in the corresponding fiscal period. If certain hedging criteria are met, such gains and losses are deferred and accounted for as assets or liabilities.

For interest rate swaps, if certain hedging criteria are met, interest rate swaps are not recognized at their fair values as an alternative method under Japanese accounting standards. The amounts received or paid for such interest rate swap arrangements are charged or credited to income as incurred.

(o) DISTRBUTION OF RETAINED EARNINGS

Under the Corporation Law of Japan (the "Law"), the distribution of retained earnings with respect to a given financial period is made by resolution of the shareholders at a general meeting held subsequent to the close of the financial period. The accounts for that period do not, therefore, reflect such distributions. Refer to Note 23.

(p) ACCOUNTING STANDARDS ISSUED BUT NOT YET ADOPTED

Implementation Guidance on Recoverability of Deferred Tax Assets (ASBJ Guidance No. 26 of March 28, 2016)

(1) Overview

Audit Committee's Report No. 66 titled "Auditing Treatment for Judgment of Recoverability of Deferred Tax Assets" forms the framework for the recoverability of deferred tax assets, whereby the calculation of deferred tax assets shall be dependent on which of the five categories the enterprise falls under, with the following necessary revisions made.

1) The handling of enterprises that do not satisfy all the conditions of any of the categories one to five.
2) The conditions of categories two and three.
3) The handling of category two enterprises unable to schedule future deductible amounts.
4) The handling of the permissible period for the estimation of future taxable income before additions or deductions for category three enterprises.
5) The handling of category four enterprises that also fall under category two or three.

(2) Planned Date for Application

These revisions will be applied from the beginning of the fiscal year ending March 31, 2017.

(3) Effects of Application of Accounting Standard

We are still evaluating the effect these revisions will have on the consolidated financial statement.

3. CHANGE IN ACCOUNTING POLICY

Application of Accounting Standard for Business Combinations

The "Accounting Standard for Business Combinations" (Accounting Standards Board of Japan (ASBJ) Statement No. 21, 13 September 2013, hereinafter the "Business Combinations Standard"), the "Accounting Standard for Consolidated Financial Statements" (ASBJ Statement No. 22, 13 September 2013, hereinafter the "Consolidated Financial Statements Standard"), the "Accounting Standard for Business Divestitures" (ASBJ Statement No. 7, 13 September 2013, hereinafter the "Business Divestitures Standard") and others have been applied since beginning of this consolidated fiscal year.

Accordingly, the Company's accounting policies have been changed; the difference arising from a change in ownership interest in a subsidiary when the Company continues to have control is recorded as capital surplus, acquisition-related costs are recognized as expenses in the consolidated fiscal year when they are incurred. Also, regarding business combinations to be performed at and after the beginning of this consolidated fiscal year, a method was changed with regard to the retrospective adjustment of the purchase price allocation based on provisional accounting applicable to the consolidated financial statements of the fiscal period in which the business combination occurred. In addition, the Company has changed expression of net income, etc. and changed minority interests to non-controlling interests. To reflect these changes in presentation consolidated financial statements in the previous fiscal year have been reclassified. In accordance with transitional treatments stipulated in Paragraph 58-2 (4) of the Business Combinations Standard, Paragraph 44-5 (4) of the Consolidated Financial Statements Standard, and Paragraph 57-4 (4) of the Business Divestitures Standard, the Business Combinations Standard and others have been applied from the beginning of this consolidated fiscal year.

The effect in the consolidated financial statements as a result of the adoption of these accounting standards is no impact in this consolidated fiscal year.

4. RECLASSIFICATIONS

Certain reclassifications have been made to the prior year's consolidated financial statements in order to conform to the current year presentations.

5. U.S. DOLLAR AMOUNTS

17. NET ASSETS

The Japanese Companies Act ("the Law") became effective on May 1, 2006, replacing the Japanese Commercial Code ("the Code").

Under the Japanese laws and regulations, the entire amount paid for new shares is required to be designated as common stock. However, a company may, by a resolution of the Board of Directors, designate an amount not exceeding one-half of the price of the new shares as additional paid-in capital.

Under the Law, in cases where dividend distribution of surplus is made, the smaller of an amount equal to 10% of the dividend or the excess, if any, of 25% of common stock over the total of additional paid-in-capital and legal earnings reserve must be set aside as additional paid–in-capital or legal earnings reserve. Legal earnings reserve is included in retained earnings in the accompanying consolidated balance sheets.

Under the Code, companies were required to set aside an amount equal to at least 10% of cash dividends and other cash appropriations as legal earnings reserve until the total of legal earnings reserve and additional paid-in capital equaled 25% of common stock.

Under the Code, legal earnings reserve and additional paid-in capital could be used to eliminate or reduce a deficit by a resolution of the shareholders' meeting or could be capitalized by a resolution of the Board of Directors. Under the law, both of these appropriations generally require a resolution of the shareholders' meeting.

Additional paid-in capital and legal earnings reserve may not be distributed as dividends. Under the Code, however, additional paid-in capital and legal earnings reserve may be transferred to retained earnings by the resolution of the shareholders meeting as long as the total amount of legal earnings reserve and additional paid-in capital remained equal to or exceeded 25% of common stock. Under the law, all additional paid-in-capital and all legal earnings reserve may be transferred to other capital surplus and remained earnings, respectively, which are potentially available for dividends.

Assets

(1) Cash and cash equivalents and (2) Trade notes and accounts receivable

All of these are settled within a short time, and their fair value and book value are nearly equal. Thus, the book value is listed as fair value in the table above. Additionally, foreign exchange forward contracts are accounted for as part of accounts receivable. Therefore, the fair value of the contracts are included in the fair value of underlying account receivable.

(3) Investment securities

The fair value of equity securities equals quoted market price, if available.

Information on securities by category is described in Note 8.

Liabilities

(1) Trade notes and accounts payable, (2) Short-term borrowings and (3) Accounts payable

The book value is used as the fair value for these items, as their fair values approximate their book values due to the short maturity of these instruments.

(4) Long-term debt

The fair value of accounts payable and long-term borrowings are based on the present value of the total amount including principal and interest, discounted by the expected interest rate to be applied if similar new loans with a similar remaining period were entered into. Variable interest rate for long-term borrowings is hedged by interest rate swap contract and accounted for as debt with interest rate. The fair value of long-term borrowings with variable interest is reasonably based on the present value of the total of principal, interest and net cash flow of interest rate swap contract discounted by reasonably estimated interest rate to be applied if similar new loans with a similar remaining period were entered into.

22. SEGMENT INFORMATION

(1) Overview of reportable segments

Segments used for financial reporting are the Company's constituent units for which separate financial information is available and for which the Board of Directors performs periodic studies for the purpose of determining the allocation of resources and evaluating performance.

The Company undertakes production and sales activities in the quartz crystal. Within Japan, these operations are mainly handled by the Company. Overseas, operations are handled by DAISHINKU (AMERICA) CORP. in America, DAISHINKU (DEUTSULAND) GmbH in Europe, DAISHINKU (HK) LTD. and TIANJIN KDS CORP. in China, HARMONY ELECTRONICS CORP. and its subsidiaries in Taiwan, and DAISHINKU (SINGAPORE) PTE.LTD., DAISHINKU (THAILAND) Co., Ltd. and PT. KDS INDONESIA in Asia. These affiliates each operate as autonomous business units, forming comprehensive strategies in each region and developing business activities for the products and services they undertake.

Accordingly, the Company's basic production and sales structure comprises the six regional reportable segments of Japan, North America, Europe, China, Taiwan, and Asia.

(2) Calculation methods for net sales, profits/losses, assets, liabilities, and other items for each reportable segment

The accounting methods by reportable business segment herein are almost the same as the description of the "summary of significant accounting policies (Note 2)". Income by reportable business segment is stated on an operating income basis. Intersegment net sales and transfers are based on the values of transactions undertaken between third parties.

(3) Information about sales, profit (loss), assets, liabilities and other items is as follows.

23. SUBSEQUENT EVENTS

(Change in the Number of Shares Constituting One Share Unit, Consolidation of Shares and Change in Total Number of Authorized Shares)

At its Board of Directors' meeting held on May 13, 2016, the Company resolved to submit a proposal for "Changes in the Number of Shares Constituting One Share Unit, Consolidation of Shares and Change in Total Number of Authorized Shares" to the 53rd Ordinary General Meeting of Shareholders held on June 29, 2016 (the "General Meeting of Shareholders"). The proposal was approved by resolution of the General Meeting of Shareholders.

1. Change in the Number of Shares Constituting One Share Unit

(1) Reason for Changes

Japanese stock exchanges have announced the Action Plan for Consolidating Trading Units, aiming to consolidate one hundred (100) shares of common stock of domestic companies listed on Japanese stock exchanges into one (1) trading unit by October 2018. As a company listed on the Tokyo Stock Exchange ("TSE"), the Company shall respect this intention, change its number of shares constituting one share unit to one hundred (100) shares. ("Change in the Number of Shares Constituting One Share Unit.")

(2) Details of the Change

The Company changes its number of shares constituting one share unit from one thousand (1,000) shares to one hundred (100) shares as of October 1, 2016.

2. Consolidation of Shares

(1) Purpose of Consolidation of Shares

As stated in "1. Change in the Number of Shares Constituting One Share Unit" above, the Company has decided to change its number of shares constituting one share unit to one hundred (100) common stock shares, and to consolidate shares with the objectives of enhancing investment opportunities for individual investors as well as adjusting the investment unit to an appropriate level taking into consideration changes in stock prices in the medium to long term, etc. (the "Consolidation of Shares").

(2) Details of the Consolidation of Shares

- Type of shares subject to the Consolidation of Shares:

  Common shares

- Method and ratio of the Consolidation of Shares:

  Consolidation to be executed on October 1, 2016 at a ratio of 1 share for each 5 shares owned by shareholders of record in the latest shareholder register as of the close of the last day of September 2016.

- Share reduction resulting from the Consolidation of Shares

Total number of outstanding shares before consolidation (as of the last day of March 2016)	45,246,212 shares
Share decrease due to consolidation	36,196,970 shares
Shares outstanding after consolidation	9,049,242 shares

Note: "Share decrease due to the consolidation" and "Shares outstanding after the consolidation" are theoretical values calculated based on the shares outstanding before the consolidation, and on the Consolidation of Shares ratio.

(3) Treatment When There is Less Than One Share

If fractional shares of less than one share arise as a result of the Consolidation of Shares, such shares shall be subject to a bulk sale in accordance with the provisions of the Companies Act, or the Company shall purchase them as treasury stock. The proceeds of the said sale, etc. shall be distributed to the target shareholders in proportion to their respective shareholdings.

3. Schedule

May 13, 2016	Resolution at the Board of Directors
June 29, 2016	Resolution at General Meeting of Shareholders
October 1, 2016	Effective date of Change in the Number of Shares Constituting One Share Unit, Consolidation of Shares, and change in the total number of authorized shares

4. Impact on Per Share Information

Assuming that the Consolidation of Shares was conducted at the beginning of the year ended March 31, 2015, per share information for the years ended March 31, 2015 and 2016 is as follows.

	(Yen)		*(U.S dollars)*

To the Board of Directors of
DAISHINKU Corporation.

We have audited the accompanying consolidated financial statements of DAISHINKU Corporation and its consolidated subsidiaries, which comprise the consolidated balance sheet as at March 31, 2016, and the consolidated statements of operations, comprehensive income, changes in net assets, and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information, all expressed in Japanese yen.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, while the objective of the financial statement audit is not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of DAISHINKU Corporation and its consolidated subsidiaries as at March 31, 2016, and their consolidated financial performance and their cash flows for the year then ended in accordance with accounting principles generally accepted in Japan.

Convenience Translation

The United States dollar amounts in the accompanying consolidated financial statements with respect to the year ended March 31, 2016 are presented solely for the convenience. Our audit also included the translation of Japanese yen amounts into United States dollar amounts and, in our opinion, such translation has been made on the basis described in Note 5 to the consolidated financial statements.
