Notice Regarding SBT Certification for Its Greenhouse Gas Emissions Reduction Targets

In October 2025, Daishinku Group received certification from the international Science Based Targets initiative (SBTi)^{*1} for its greenhouse gas emission reduction targets, which were recognized as being science-based targets achieving with the 1.5°C target^{*2} set in the Paris Agreement.

Our targets for greenhouse gas emissions reduction validated by SBTi

Target	Base year	FY2031 Target
Scope 1+2 ^{*3}	FY2023 ^{*5}	46.2%
Scope 3 ^{*4} purchased goods and services	FY2023 ^{*5}	27.5%

We believe that SBT certification leads to enhanced social credibility and greater environmental awareness among our employees. Going forward, we will continue to fulfill our responsibilities to the global environment by contributing to the realization of a decarbonized society through implementation such as the introduction of renewable energy, the establishment of a low-

carbon production system, and the initiatives on value chain engagement. Furthermore, as part of our environmental policy, Daishinku Group has set the goal of achieving "Scope 1+2 carbon-neutrality in FY 2031" with the aim of further strengthening CO₂ reduction. Daishinku Group aims for further corporate growth by challenging the realization of carbon-neutrality with stable supply of products and environmental response as its core management.
